

HOW *to* MAKE

KNUCKLE SALAD'S SUPER-SOLDIER SHIELDS

as seen on knucklesalad.com

1. Open each template in Silhouette Studio and cut from the correct-color paper. (The big circle is red, small circle is blue, star is white.) The template is set up for four shields, so duplicate the shapes as needed before cutting.
2. Line up the slits in each shape, stack them and glue them together.
